April 16, 2018

Dear Parent/Guardian:

In the next few weeks, we will be teaching a Sexual Health unit that was developed by HealthTeacher, Inc. *HealthTeacher.com* is an online resource of health education tools to integrate health content into grade-level curriculum. The HealthTeacher, Inc. curriculum provides students the knowledge and skills needed to make responsible choices as well as communicate effectively, especially when it comes to resolving disagreements.

The approved curriculum is aligned with Hawaii Content and Performance Standards III and has been reviewed using the National Sexuality Education Standards, The Center for the Disease Control's (CDC) Health Education Curriculum Analysis Tool (HE-CAT), and the CDC's Characteristics of an Effective Health Education Curriculum.

Schools are required to provide comprehensive sexual health education that follow the requirements set forth in the Hawaii Revised Statutes (HRS) §321-11.1, Hawaii State Board of Education (BOE) Policy 103.5, and aligns with state health education standards.

Parents or guardians may preview the curriculum prior to the start date of Monday, May 7th in the front office. If contact is not made prior to the start date, it will be assumed that there are no questions about the curriculum. If I do not receive a signed and dated form by the beginning of the instruction, it will be assumed that your child has approval to participate in the curriculum.

Should you wish to schedule a time to look over the curriculum and/or have any questions, please feel free to call the front office at 697-9400.

Sincerely,
